

Kaushambi Mate

M.A. Architecture
Telgte, Germany

kaushambi.mate@gmail.com
www.kaushambimate.com

Experienced planning specialist with a current focus on the design and implementation of logistics and industrial buildings - with particular emphasis on efficient spatial utilization, functional optimization, and the integration of technical requirements into complex planning processes.

Extensive expertise in working with existing buildings, including the renovation and extension of listed heritage structures, with a strong emphasis on sustainability and a sensitive approach to historical fabric. The development of forward-looking solutions at the intersection of preservation and architectural evolution is at the core of this work.

An approach shaped by analytical thinking, a high standard of design quality, and a refined sense for context, functionality, and architectural integrity.
